POTATO ROT.—The old saying that "it is an ill wind that blows nobody good," has been happly illustrated in the saving effect the late continued dry weath or has had on the potatoes. We have heard from more sources than one, that the rot which was making sad havoe, received a sudden check during the intensely hot weather, and crops that had been given up for lost, promise a good and sound yield. Note tween St. Jerome and St. Therese, and two dwelling houses and three barns were burned on the same day in the Parish of St. Jerome, caused by fires in the woods. The contents of the dwelling houses were partially saved—but the barns were totally lost. About 2000 cords of wood were also destroyed in the Parish of St. Therese. Much more property would have been destroyed but for the great exertions of the inhabitants.

The case of the Commonwealth against Messrs William H. Myers, Samuel S. Myers and Wm. S. Burr, the first named charged with shooting Mr. D. M. Hoyt, and the others as accessories, which had been deferred until yesterday, has been farther postponed until Monday next—we presume for the purpose of ascertaining the result of the wounds, which were at first supposed to be mortal, but from which there is now we understand, a prospect of Mr. H.'s recovery. We learned yesterday that there had been a decided improvement in his condition. [Richmond Whig, 1st.
